SIMPLE AND INFORMATIVE

Customers with little or no experience of the internet can quickly and easily access their individual quotes and orders on-line.

Each quote and order can be viewed in detail whenever, wherever and as often as a customer wants. All of the detail including price, specification, glass sizes etc.. can also be easily transferred and stored for retrieval at any time on any local PC.

Checking on the progress of outstanding orders is also simple. With proposed delivery dates and times clearly viewable customers

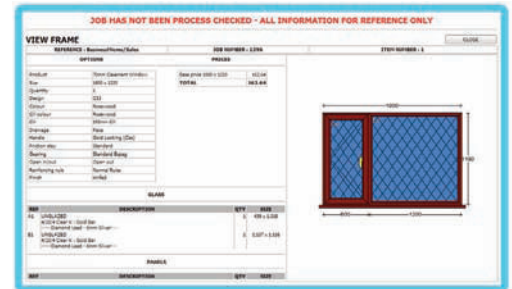

are able to adequately plan ahead with confidence.

The EvoCite home page details NEW quotes and order acknowledgements added since previous log-ons and includes a powerful search facility.

The search facility allows a customer to find past and present orders or quotes quickly and easily by inputting a single key word,

phrase or job number.

Scheduled deliveries can be viewed and confirmed together with full details of each order.

In summary EvoCite users can;

View order history and search by:-
