ON-LINE ENQUIRY & ORDERS MADE EASY

Using our exclusive EvoWeb 2 service customers can prepare and store detailed multiple enquiries based on their preferred product specifications, add fitting costs, apply THEIR own mark-ups and print out bespoke estimates and much more. The facility also allows a customers standard defaults to be retained enabling quick input of enquiries and orders.

Retained enquiries can easily be retrieved, altered, re priced and deleted as well as converted to a confirmed order on line any day or time of the week. Progress of orders is easily monitored using the EvoCite 1 package with additional

savings for on line ordering available.

Using EvoWeb 2 is not difficult and anyone with minimal computer experience and a knowledge of window and door installations would master it in no time.

Easy to follow on screen menus guide the user through the required information. Only when a customer is satisfied all the information is correct is the order then processed and forwarded on for manufacture.

In summary EvoWeb users can;

Create Multiple Quotes & Orders using preset designs

Build detailed quotes item by item and prepare a printout for their customer using their own headings and contact details as well as adding their own markup/costings

The screenshots show the EvoWeb2 interface with various panels for product selection, configuration, and quoting. One panel shows a grid of window styles (C1-C13). Another shows a detailed configuration screen for a window with dimensions (1455x2070) and options like 'Colour: White', 'Frame (head): Silver', etc. A third panel shows a quoting screen with items like 'BED 1' (1800x1190), 'LOUNGE' (2400x1385), and 'FRONT DOOR' (855x2100) with their respective prices. A fourth panel shows a printed quote for 'Business Micros' from 'Demo Windows Ltd' dated 16 November 2010, listing items and their prices.

All quotations can be stored and retrieved
